REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance. The prior art made of record considered as a whole neither shows, nor renders obvious the overall combination of a magnetic head including a substrate having a thermal expansion rate CTE1, transducer having a thermal expansion rate CTE2 and first restraint layer having a thermal expansion rate CTE3, such that CTE2 is greater than CTE1 and CTE3 is less than CTE1, such that the first restraint layer has a thickness of at least 2um and "contracts relative to the substrate with increasing temperature in a second direction which is perpendicular to the plane of the substrate and opposite the first direction to reduce a distance of a thermal protrusion of the transducer beyond the plane of the substrate and maintain the arrangement of the face of the transducer substantially in the plane of the air bearing surface of the substrate".

The closest prior art of record, i.e., Koshikawa and Okai, do not teach such a configuration. The above arrangement does not require a large pole tip recess as in the prior art, permitting a more compact configuration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian E. Miller whose telephone number is (703) 308-2850. The examiner can normally be reached on M-TH 7:15am-4:45pm (and every other friday).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoa T. Nguyen can be reached on (703) 305-9687. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
